# ABOUT US

**Winta Engineering Solutions Ltd** is a fully registered Ugandan engineering company specializing in the provision of sustainable water and energy solutions. We design , supply, and install a wide range of water pumps (AC, DC, and engine pumps), modern climate-smart irrigation systems, and complete solar systems for homes, farms, institutions, and communities. Our expertise extends to water source development, consultancy in solar-powered irrigation systems (SPIS), operations and maintenance (O&M) trainings, and project management services. With a commitment to quality, innovation, and client satisfaction, Winta Engineering Solutions Ltd delivers practical, cost-effective solutions that help clients maximize water and energy efficiency for improved livelihoods and resilient communities.

# OUR HISTORY

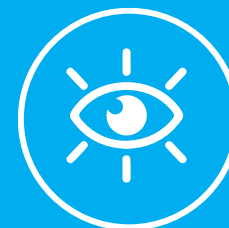

Established in 2025, Winta was founded with a vision to deliver innovative, reliable, and sustainable water and energy solutions. What began as a small team of passionate individuals has quickly evolved into a dynamic startup focused on delivering impactful, sustainable, and scalable solutions. With a strong commitment to innovation, customer satisfaction, and community empowerment, Winta is steadily making its mark in the water & energy sector.

## MISSION

To deliver innovative, reliable, and sustainable water and energy solutions that improve productivity, promote climate-smart practices, and enhance the quality of life for communities in Uganda and beyond.

## VISION

To be the leading provider of integrated water and renewable energy solutions in East Africa, empowering communities through sustainable engineering services and technologies.

# CORE VALUES

## Sustainability

We prioritize environmentally responsible solutions that promote renewable energy use, water conservation, and long-term impact.

## Innovation

We embrace new ideas and technologies to deliver efficient, sustainable, and adaptable solutions to our clients' unique challenges.

## Integrity

We uphold the highest standards of honesty, transparency, and accountability in all our operations and partnerships.

## Excellence

We are committed to quality workmanship, reliable service delivery, and exceeding our clients' expectations every time.

## Client Focus

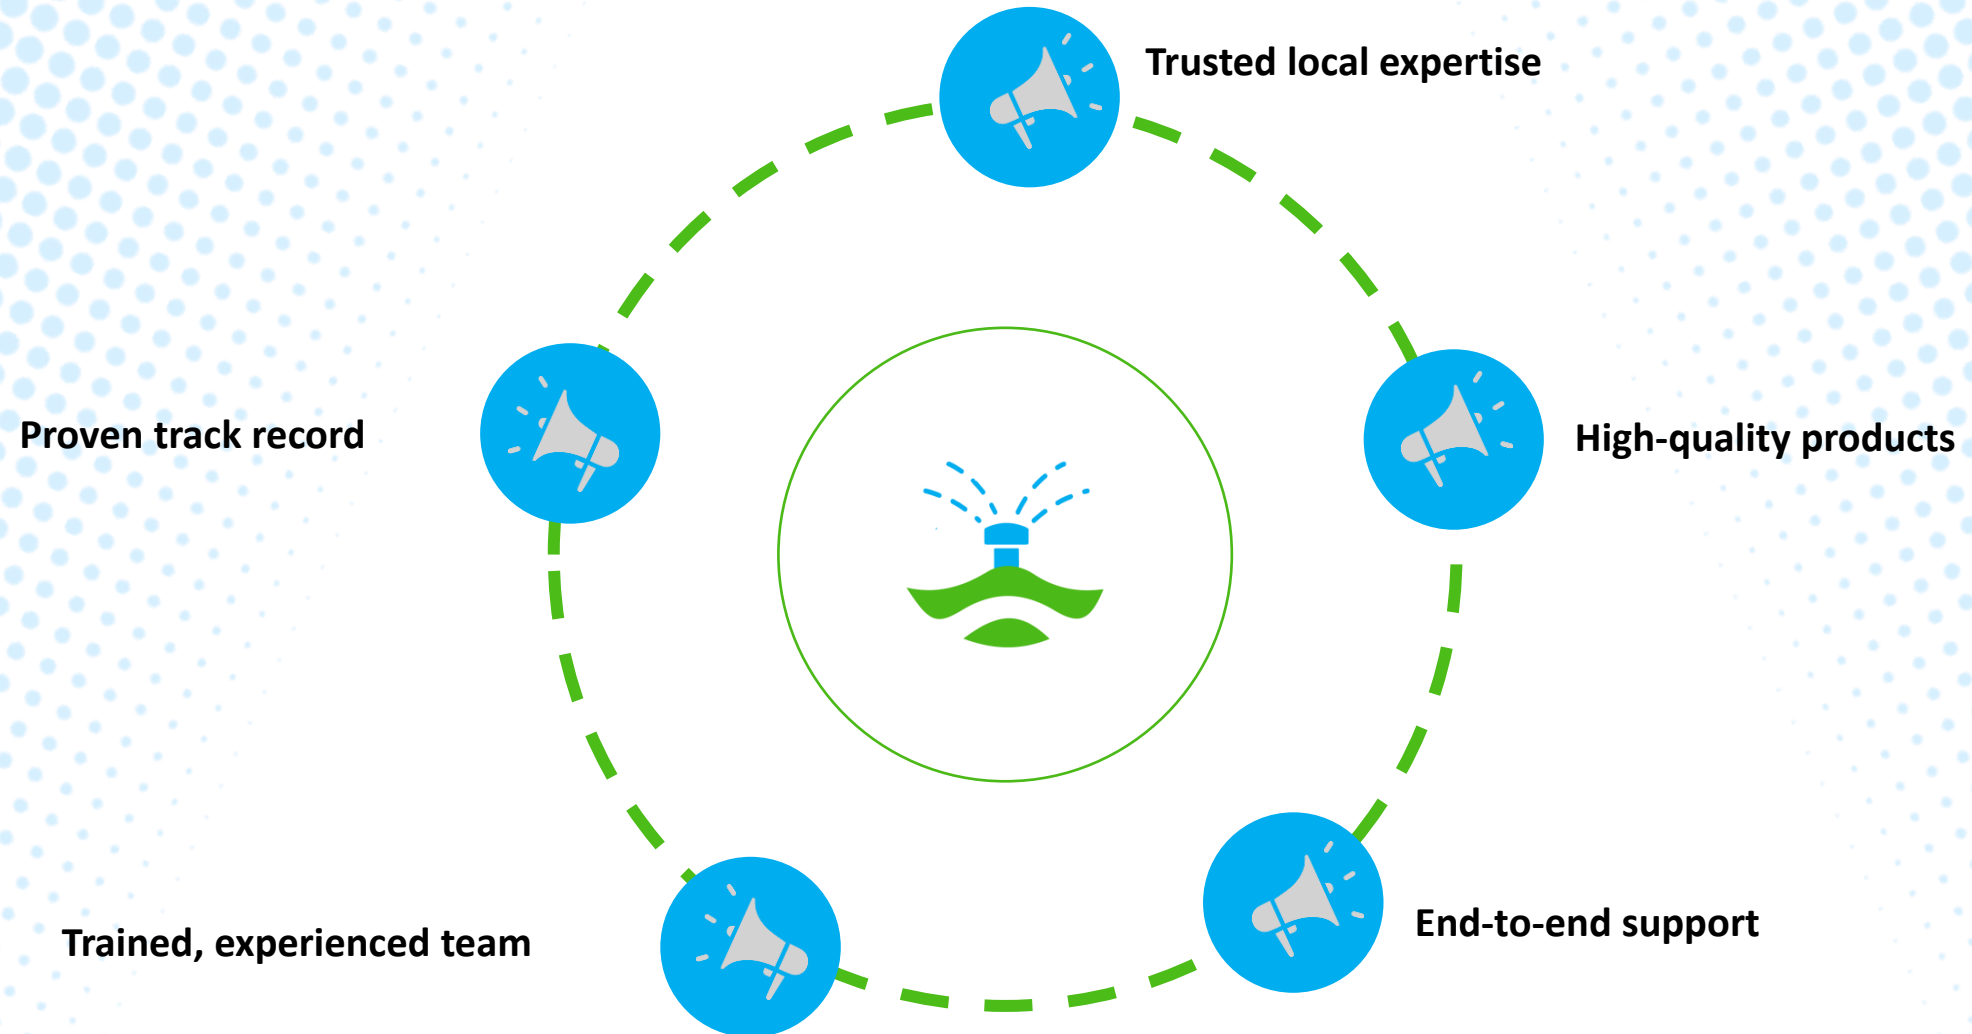

We build strong relationships by listening, understanding, and delivering tailored solutions that add real value to our clients.

## Teamwork

We believe in collaboration, mutual respect, and empowering our team and partners to achieve shared goals.

# WHY CHOOSE US?

# OUR SERVICES

## Water Pumps

Supply and installation of AC, DC, and engine-driven water pumps for domestic, commercial, and agricultural use. We help you choose the right pump for your water source and usage needs.

## Irrigation Systems

Design and installation of efficient micro and macro irrigation systems to boost agricultural productivity and conserve water.

## Water pumping systems design and installation

Customized design and professional installation of complete water supply and distribution systems for residential, commercial, and agricultural needs.

# MORE SERVICES

## Domestic and Commercial Solar Systems

Integration of solar energy for water pumping, irrigation, and general power supply to reduce operational costs and promote sustainability.

## Water Source Development

Development and rehabilitation of water sources such as boreholes, shallow wells, and spring protection.

## Project Management

End-to-end project management for projects, from planning to commissioning and handover.

## Consultancy Services

We offer expert-led SPIS trainings, equipping stakeholders with the knowledge and skills needed for effective system design, installation, and operation.

# OUR PRODUCTS

**Solar Pumps**

**Engine Pumps**

**Electric Pumps**

**Hybrid Pumps**

**Laser Rain Spray Watering  
Hose Irrigation Kits**

**Sprinkler Irrigation kits**

**Drip Irrigation Kits**

**Ennos sunlight pump Kit**

# OUR PROJECTS

## PROJECT 1

---

### Sprinkler Movable Irrigation Systems

Smart, portable Irrigation that saves water and boosts harvests across multiple fields.

# OUR PROJECTS

## PROJECT 2

---

### Elevated Storage Tank Towers

In irrigation, we store water ensuring a reliable water supply keeping communities and farms hydrated.

# OUR PROJECTS

## PROJECT 3

---

### Laser Spray Irrigation

It is similar to fin rain to moisten the crops-spraying water with little impact without harming the crops.
